27 December 1976

MEMORANDUM FOR THE RECORD

SUBJECT: Briefing on OEL DATA/TTY Terminal to be Installed

[REDACTED]

1. On 22 December 1976 at 1300 hours, Mr. Robert [REDACTED] OC-E/SED/SYB briefed OC-CS on the new DATA/TTY Terminal to be installed by OEL at [REDACTED]

2. Basically the new system is a replacement for an obsolete system. The hardware (Hewlett Packard processor plus a variety of I/O devices) has for the most part been purchased, in fact, some have been delivered. The Request for Proposal has not yet been released for the software contract.

3. [REDACTED] stated to [REDACTED] that OC-CS wishes to review the software specifications prior to the release of the RFP. The nearly completed specs will be forwarded to OC-CS the afternoon of 22 December 1976. We agreed to try to turn them around and respond to OC-E not later than mid-January 1977.

4. A system block diagram is attached.
